

GLOBAL Relations

The work of Flight Safety Foundation has inspired several independent organizations. These “sister” organizations cooperate with the Foundation and focus on aviation safety improvements in specific parts of the world. The Foundation supports the activities of the organizations through technical briefings, logistical assistance, speakers and publications.

The activities and achievements of our sister organizations will be highlighted in future issues of *AeroSafety World*. For contact information for any of the organizations, please visit <www.flightsafety.org/sister_org.html>.

Aviation Safety Foundation Australasia

The Aviation Safety Foundation Australasia (ASFA), based in Melbourne, has consolidated and coordinated safety efforts in all facets of the national aviation industry, from agricultural applicators to major airlines. ASFA activities include safety awards and conferences.

Flight Safety Foundation–Commonwealth of Independent States

Shortly before the breakup of the Soviet Union in the early 1990s, Flight Safety

Foundation–International was formed in Moscow. Currently, the organization conducts aviation safety activities in the Commonwealth of Independent States (CIS). FSF–CIS activities include the translation and redistribution of FSF publications.

Flight Safety Foundation–West Africa

Flight Safety Foundation–West Africa (FSF–WA), based in Lagos, Nigeria, was formed in early 2000 to serve the West African subregion. FSF–WA’s work includes the identification of priority areas of concern, dissemination of information, participation in industry analyses of safety and development of regional initiatives to improve aviation safety in the context of initiatives elsewhere in the world.

Flight Safety Foundation–Japan

Flight Safety Foundation–Japan was created in the late 1980s, after an FSF seminar in Tokyo, as an association of airline safety officers. Members of FSF–Japan meet to share information, organize safety conferences and support international initiatives of the Foundation.

Flight Safety Foundation–Southeastern Europe, Hellas (FSF–SEE)

FSF–SEE’s area of operation initially includes Albania, Bosnia and Herzegovina, Bulgaria, Croatia, Cyprus, Greece, Kosovo, Romania, Serbia and Montenegro, and Slovenia. FSF–SEE advises the Foundation and its allied organizations regarding regional aviation safety and other issues.

Flight Safety Foundation–Taiwan

Flight Safety Foundation–Taiwan for more than 12 years has helped to promote and coordinate aviation safety efforts among all the airlines of Taiwan, China. The organization and its mission have been patterned after the Foundation’s work.
