

Congratulations From Toulouse

just received the first issue of the Foundation's new publication. Congratulations to all for this very attractive and content-rich new presentation!

The challenge of encapsulating in one publication all the previous bulletins and *Flight Safety Digest* has undoubtedly been achieved.

I will go through the various articles, but I wished to share with you, without delay, my enthusiasm and appreciation for this achievement.

Michel Trémaud
Senior Director,
Safety Programs/Initiatives Product Safety
Airbus
Toulouse, France

Tribute to Former Editors

Congratulations to Flight Safety Foundation for its new publication, *Aviation Safety World*! As a flight safety information user (U.S. National Aeronautics and Space Administration and Enders Associates International) and provider

(FSF), I have watched and participated in the steady progression of the Foundation's publications for over 48 years as they were successively adapted to the evolutionary needs of the broader aviation community they have served. This could not have happened without the dedication of a group of individuals over the years who enabled the timely dissemination of vital safety information to the user community.

Former editors Gloria Heath, Doris Ahnstrom, Ira Rimson, Cecil Brownlow and Roger Rozelle with their devoted staffs played crucial roles in making Flight Safety Foundation the respected source of objective and credible aviation safety information.

I look forward to seeing the continued growth and development of this information link to the user community in the months and years to come.

John H. Enders
Former President, CEO and Vice Chairman
Flight Safety Foundation

Aviation Safety World encourages comments from readers, and will assume that letters and e-mails are meant for publication unless otherwise stated. Correspondence is subject to editing for length and clarity.
