

Dr Rob Lee, AO, FRAeS, FCILT, Group Captain, RAAF Specialist Reserve

Dr Lee is an internationally renowned consultant on human factors, safety investigation, risk management and systems safety in aviation, rail, nuclear power and health care.

In 1977, Dr Lee became the first Royal Australian Air Force (RAAF) psychologist to serve as a human factors (HF) specialist on Australian military aircraft accident investigations.

He was Director of the Australian Bureau of Air Safety Investigation (BASI) from 1989-1999, pioneering the application of human factors and systems safety concepts to air safety investigation.

Since 2000, he has been an analyst on major civil and military accident investigations in Australia, Asia,

Europe and the Middle East.

He works on civil and military integrated SMS development, implementation and training, lectures widely on HF and SMS.

Dr Lee has presented and published many conference papers and co-authored *Beyond Aviation Human Factors* (1995) with James Reason, Daniel Maurino, and Neil Johnston.

He is the recipient of a number of awards, including the Australian Aviation Psychology Association (AAvPA) Aviation Human Factors Achievement Award, November 2000; the Guild of Air Pilots & Air Navigators (GAPAN) 2010 Australian Bi-Centennial Award; the 6th EAAP award for Outstanding Commitment and Achievement in Aviation Psychology, Malta, September 2014; the Specialist Gold Award and Roger Green Medal from the Royal Aeronautical Society “for exceptional work that has led to substantial advances in specialist disciplines in the aerospace industry”, London, November 2015.

He was awarded the Order of Australia (AO) for distinguished services to aviation safety in 2012.

In addition to consulting widely to industry, he is currently in the Royal Australian Air Force Specialist Reserve where he holds the rank of Group Captain.
