MEMBERSHIP BENEFITS

MEMBERSHIP CATEGORIES

Flight Safety Foundation has been changing the conversation about safety since 1947. It is an international nonprofit organization whose sole purpose is to provide impartial, independent, expert safety guidance and resources for the aviation and aerospace community.

It's more important than ever to become a member. We're going to continue tackling some of the biggest safety issues facing the aviation industry, and we need your help.

Summits and Seminars

Because aviation safety is global and local, the Foundation conducts meetings, large and small, around the world, including:

- Business Aviation Safety Summit (BASS)
- International Air Safety Summit (IASS)
- Regional Aviation Safety Seminar (RASS)

Publications and Media

Without your support, we would be unable to provide and freely distribute important safety information that affects the aviation industry on a global scale, including:

- *AeroSafety World* magazine
- Press releases
- White papers
- Speeches and presentations

Information and Education Dissemination of Key Industry Topics

- Enabling data sharing and maximizing data protection
- Minimizing unstable approaches and ensuring safe go-arounds
- Advancing safety in challenging operations

BARS Benefactor

The Basic Aviation Risk Standard (BARS) is a risk-based program used by the mining sector to assist with managing aviation needs in challenging and remote environments. The BARS Benefactor category was created to enable BARS member organizations with a special interest in safety to play a more active role within the Foundation.

Benefactors

Benefactors are the elite members of the Foundation who contribute above and beyond the normal membership dues, regardless of their membership category.

Patrons

Patrons are companies or individuals who contribute above and beyond the normal membership dues, but less than the Benefactor fees.

BARS Benefactor, Benefactor and Patron members receive exclusive benefits beyond the other categories of membership and are able to take part in forming the overall strategy of the Foundation.

Air Carriers

Commercial carriers of all sizes and types (including mainline, regional and cargo).

Airports

Small, medium and large hub airports, airport authorities or private companies that operate and manage airports.

Business Aviation

Flight departments, charter companies, fixed-base operators and fractional owners.

Government

National and state institutions.

Manufacturers

Airframers; avionics, engine and parts manufacturers and suppliers; etc.

Nonprofit Organizations

Charitable organizations, NGOs, associations, etc.

Support Services

Companies that support the aviation safety industry with products and services that do not fit into the other specific categories, such as MROs, insurance companies and consultants.

Individuals

Individuals not actively employed by organizations that qualify for Foundation membership in other categories.

Academics

Academic institutions, such as colleges and universities that offer courses or degrees within the aviation industry.

Students

Students enrolled full time in a college or university pursuing an aviation degree.
