

SKYbrary  
Knowledge Sponsor

**What is SKYbrary?**

SKYbrary is an electronic repository of safety knowledge related to flight operations, air traffic management (ATM) and aviation safety in general. It is also a portal, a common entry point that enables users to access the safety data made available on the websites of various aviation organizations - regulators, service providers, industry.

**SKYbrary's Strategic Objective**

SKYbrary's objective is to become a single point of reference for aviation safety knowledge by making universally available and accessible the safety knowledge accumulated by various aviation organizations, entities and initiatives. The SKYbrary knowledgebase is a dynamic enterprise and has taken several years to develop. To develop further, and maintain the accuracy and relevance of the knowledgebase, will require the support and active participation of all those interested in promoting best practice and knowledge in aviation safety.

**SKYbrary Content Development Priorities**

SKYbrary content development priorities have been to focus on:

Who: Flight Operations and Air Traffic Management

Where: Globally

What: Operational Risks

Aviation sector: Commercial Air Transport
