

Rolls-Royce
Platinum Level Sponsor

The Rolls-Royce brand promise of “Trusted to Deliver Excellence” is not only to deliver excellence around its services, but also to deliver this with a very clear focus on its customers’ business and operational benefits.

In the aerospace sector, 1,350 customers are benefiting from Rolls-Royce digital capability globally, with a range of products and consultancy covering Engine Health Monitoring, Efficiency Management and Safety Management System.

Complementing its TotalCare® range of Services, Rolls-Royce Safety Management System (SMS) solution, formerly known as (Visium)AQD, enables organizations to manage all aspects of operational risk and regulatory compliance consistently across their enterprise.

Used by the top airline safety performers, the Rolls-Royce SMS has established itself on the market as the leading solution for efficient safety, quality and risk management, and has now a customer base of over 120 operators, spread across 50 countries.

Rolls-Royce is a member of the Flight Safety Foundation and is represented on the Foundation’s Board of Governors and its International Advisory Committee.
