

**Xavier Jolivet**

Director of Flight Safety / Safety Enhancement  
Airbus SAS

Xavier JOLIVET is graduated from French ISAE/ENSICA (MSc in aeronautical engineering in 1996). He joined LABINAL/SAFRAN in 1997 as Structure engineer, and moved to Airbus Customer Services engineering in 2001.

He incorporated the Airbus Accident/Incident Go Team as structure specialist in 2005, and moved to the Airbus Product Safety Department in 2008, as Director of Flight Safety. Between 2005 and 2015 he participated to several major investigations, either as specialist or lead investigator.

From 2016, he joined the Product Safety Enhancement and Data Analysis Group where he is more in particular in charge of multi-programme projects and innovation.

In parallel to the Airbus activities, Xavier Jolivet is teaching Structure at ISAE since 2006 and Aviation Safety & Airworthiness since 2013. He has been promoted Professor at ISAE in 2016. Xavier Jolivet is also auditor of the IHEDN (Institute for Higher National Defence Studies).

He is married and has two children.
