

Jimson Ngiam

Quality Director

Thales Solutions Asia

Jimson obtained his Diploma in Quality Assurance Engineering from Ngee Ann Polytechnic, followed by a Bachelor Degree in Engineering Management awarded by the University of Western Sydney.

Professional Practices

With 20 years of experienced working in various aerospace companies. He started off as a laboratory specialist testing aerospace material, controlling of special processes and performing NDT on landing gears, engine mount and aero-structures.

When Jimson was a Quality Manager in an MRO organization when he first started, he was certified by various Aviation Authorities (e.g. CAAC, CAAS, CAA UK, DGAC EASA, DCA, FAA etc.). Jimson is currently holding the position of Quality Director in Thales Solutions Asia Pte Ltd responsible for quality management for MRO (Part-145) and Production (Part-21) facility and other quality operations in Asia as well suppliers development.

Jimson is currently a certified IAQG Aerospace Experience Auditor for AS9100 and AS9110 standard. He is an experienced trainer on Human Factors, ISO9001, ISO18001, ISO14001, Airbus IPCA+, AS91xx series standards and other aerospace related subjects.

He is actively involved in the Association Aerospace Industries of Singapore (AAIS) serving as a Management Committee Member holding various appointments. He is also the chairman of the Singapore Aerospace Quality Group (SAQG) and also a member of the Asia Pacific Aerospace Quality Group (APAQG).
