

Helene Pepin

Senior Group Manager
ARTC

Helene Pepin is Senior Group Manager Advanced Remanufacturing, at ARTC since 2015. She currently leads the ARTC team working at developing innovative solutions for ARTC's members utilizing regenerative and manufacturing processes.

Helene holds a Master degree in Engineering management from Université de Sherbrooke, and a bachelor's degree in Automated Manufacturing Engineering from Ecole de Technologie Supérieure, in Canada. She is a member of Ordre des ingénieurs du Québec. Prior to working at ARTC, Helene has worked in the Aerospace Industry at Pratt & Whitney Canada, Rolls-Royce Canada and Rolls-Royce plc, cumulating 36 years of Aerospace technical and managerial experience in Materials, Manufacturing, Supply Chain, Manufacturing Engineering and Maintenance Repair and Overhaul.

Her key expertise is related to the management of highly skilled specialists in technical functions. Helene is trained as a professional coach, which has helped her adapt to a variety of cultures. During her career, she has successfully managed teams in Canada, France, United Kingdom, China and Singapore. As part of ARTC, she is actively working at developing the new generation of Singaporean engineers and industrial researchers in support of various remanufacturing and manufacturing industries in Singapore and abroad.
