

CGE Risk Management Solutions

Exhibitor: Booth Number 29

CGE Risk Management Solutions is the developer and marketer of the world's leading barrierbased risk management software BowTieXP, with its enterprise solution BowTieServer. We assist companies around the world to improve their operations by visually communicating enterprise and operational risks. Integrated with our graphical products IncidentXP and AuditXP, our software improves learning from incidents and the monitoring of the state of barriers.

BowTieXP - risk assessment

IncidentXP - incident analysis

AuditXP - audits/inspections on barrier level

BowTieServer - Enterprise bowtie solution
