CHINA AVIATION DEVELOPMENT FOUNDATION

The CADF was established to help with development of Taiwan's aviation industry, and the advancement of other major transportation development projects in Taiwan, ROC. Towards this goal, its scope of business covers:

- (1) Undertaking activities that promote the development of the aviation industry.
- (2) Cultivating and fostering human resources in the aviation sector to promote its advancement.
- (3) Organizing events that were helpful to the development of the aviation industry.
- (4) Assisting in the investment of aviation businesses to enhance their operations capability.
- (5) Assisting major transportation project developments in the nation.
