

Logan Jones

Runway Safety Specialist

Navblue

Dr. Logan Jones is a Runway Safety Specialist for NAVBLUE. He got his bachelor's in mechanical engineering at the University of Alberta and his Masters & Doctorate in Aeronautical Engineering from ISAE-Supaero in Toulouse. He started his career at Airbus, 10 years ago, working on the development of Airbus' Runway Overrun Prevention System. At NAVBLUE, he works as part of a team dedicated to developing and deploying new technologies to improve runway safety
