

KHOO BENG KEAT
Executive Director
Aviation Virtual Pte Ltd.

- 40+ years of experience in Commercial & Defense Aviation
- Chairman in IES Charter Engineers Interview Panel for Aerospace sector

He started off working as a Licensed Aircraft Engineer with SIA, and transit into a full engineering career with RSAF for over 20 years, before embarking on his private enterprise career. Over the years in RSAF he has held key senior engineering and command positions, and it was where he gain most of his aviation engineering credentials. He was the founder of the FIA (Failure Investigation and Analysis) and Aircraft Maintenance Engineering interest groups and community in RSAF. He has also an adjunct lecturer in Aircraft Maintenance Engineering in SUSS (formally SIM University). After leaving RSAF, he became the CEO of an aviation MRO and FBO business in Seletar Airport.

Subsequently, he became the co-founder of Aviation Virtual in 2014, where some of the key andrological learning concepts of Virtual Reality training was applied and read across to different industries. He is currently also the Chairman of the Chartered Engineers Aerospace Sector Interviewing Committee.
