

**Victoria Wilk**

*Director of Safety & Regulatory Affairs*

China

Victoria Wilk is Boeing's Director of China Safety of Regulatory Affairs. Victoria is responsible for leading Boeing Commercial Airplane Safety & Regulatory in China, responsible for evolving and executing Boeing's Aviation Safety partnerships in China, and working with the CAAC on regulatory and rulemaking issues. Based at the Boeing China office in Beijing, she is involved in all BCA CAAC aircraft validation activity, Boeing implementation of the FAA-CAAC IPA, the introduction of the Boeing Completion and Delivery Center in Zhoushan and general regulatory support to Boeing Production Delivery support and in-service continued airworthiness.

Victoria Wilk is co-chair of Aviation Cooperation Partnership's Manufacturing & Airworthiness committee. She works closely with in-country FAA, CAAC, and ACP US-Industry representatives to advance US Aviation Safety cooperation in China.

Victoria's 13 year tenure at Boeing has been spent growing and leading Boeing Commercial Airplanes Engineering organizations. Victoria has served as leader over 737 Data Connectivity, Cabin Systems, Payloads Certification, In-Flight Entertainment, Avionics, and Flight Deck Displays. Victoria began her career working 737 Airplane-Level Product Development, and in Boeing Business Jets.
