

## COVID-19 SAFETY PUNCH LIST—SAFETY ASPECTS OF CONTINUED OPERATIONS

### Airports

#### People

- Consider skills, experience, knowledge and qualification distribution across shifts
  - Possible prolonged staff loss due to sickness
- Consider risk of airside staff complacency due to reduced ramp activity levels

#### Process

- Ensure accuracy, currency and timely transmission of NOTAMS
- Ensure maintenance of active wildlife control measures
- Consider allowing more crew rations food/water through security screening
- Ensure sufficient provision of ground handling services such as toilet cleaning and galley replenishment
- Ensure that the airfield has a master parking plan and that standard and crisis level capacity are known

#### Technical

- Consider requirement to keep aerodrome facilities and services operational and certified
- Ensure that sufficient engine running capability exists
