

Agenda

(*Last edited April 20, 2022)

The Business Aviation Safety Summit (BASS) is a forum for the business aviation industry to meet in a collaborative environment to identify safety concerns, devise approaches to reduce risk and implement initiatives to improve safety. The summit, organized by Flight Safety Foundation, in partnership with the National Business Aviation Association covers safety, training, practical solutions, management, human factors and other issues for every segment of the business aviation industry.

At this year's BASS, we'll take a closer look at what you can do to influence safety culture, get a clearer picture of operational risk, and help improve safety performance in your organization.

Monday, May 9, 2022	
Training Session – ASIAS Program and Capabilities 10:00 a.m. – 12:00 p.m. EDT Location: Grand Ballroom A/B	FSF is working with industry partners to provide additional training opportunities for registered BASS attendees at no additional cost. This session will help participants learn how to use the Aviation Safety Information Analysis and Sharing (ASIAS) program dashboard. ASIAS government and industry representatives will discuss the practical use cases on how the program's safety information can be leveraged by business aviation operators to proactively manage risk. *Please note, this training will ONLY be open to flight operations personnel. Speakers: <ul style="list-style-type: none"> Mr. Scott Williams, Aviation Systems Lead, MITRE Mr. Jens Hennig, Vice President of Operations, General Aviation Manufacturers Association (GAMA) Mr. Chad Brewer, Operational Safety Analyst, Federal Aviation Administration
Lunch 12:00 – 1:00 p.m. EDT	Location: River Lawn & Concourse
Training Session – Safety Auditing Programs and Capabilities 1:00 p.m. – 3:00 p.m. EDT Location: Grand Ballroom A/B	FSF is working with industry partners to provide additional training opportunities for registered BASS attendees at no additional cost. This session will help participants learn more about available safety auditing programs for the business and on demand aviation industry. This includes the latest guidance on ISBAO, BARS, ICAO and SM ICG standards. Speakers: <ul style="list-style-type: none"> Mr. Sonnie Bates, CAM, MSM, CEO, Wyvern Ltd. Mr. Andrew Karas, IS-BAO Programme Director, International Business Aviation Council Mr. Henry Gourdji, Director, Safety Strategy and Policy, Flight Safety Foundation
National Safety Groups Leadership meeting 1:00 – 3:00 p.m. EDT	Closed meeting – invite only

--	---

<p>Session 2 – Data and Safety Reporting 10:30 a.m. – 12:00 p.m. EDT Location: Grand Ballroom A/B</p>	<p>Presenters will look at what we are learning about business aviation from safety reporting programs. They will also look at how we can use that data to improve safety across the industry. This includes using flight data to ensure prepared, not just proficient pilots. Without measuring safety margins, operators are blind to the risks in their operation. Similarly, training focused solely on regulatory requirements is not enough to prevent accidents. Identifying and focusing training on safety risks will prepare pilots for items not</p>
